"Adventure Game: Above the Cloud" is a game inspired by the animated series depicting the adventures of a boy named Finn and his magical dog companion, Jake, in a post-apocalyptic world. The game offers simple and engaging gameplay, where the player controls a character jumping across platforms, avoiding obstacles, and shooting enemies. The objective of the game is to ascend as high as possible without falling. The pixel art graphics contribute to the game's distinctive visual style.

The game begins with a mini-comic (Pictures 1 and 2) narrating its storyline. While carrying out roadwork, Finn and Jake accidentally disturb a stone holding down an air balloon. Consequently, the air balloon, containing Princess Bubblegum, takes off into the sky. She urgently seeks the help of the friends to rescue her. The protagonist's primary mission is to navigate the platforms in the sky, jumping and ascending, in order to locate and save Princess Bubblegum.

Pictures -1, 2. Comic for the game.

The game "Adventure Game: Above the Cloud" falls within the platformer genre. In this genre, players control a character who navigates and interacts with the surrounding environment by jumping across platforms. The primary emphasis is placed on the character's ability to overcome obstacles, avoid dangers, and, in this case, ascend to higher levels. In addition, the distinctive feature of this game is the presence of a store inside the game. The player can buy the desired characters with the accumulated money. There are 12 characters in total. This game also incorporates elements of arcade gameplay, where the player strives to achieve the highest possible score or outcome.
